```
|----4---0-------5---4---0---4-----------4---2---------------|
|-2---------2------------------5--------------4---0--------|
|--------------------------------4-----------------------|
|-------------------------------------------------------|
|-------------------------------------------------------|
|-------------------------------------------------------|
```

Intro rhythm part:

C#   E   B   C#

C#   **B**
I know there is a place
            C#
a place where I belong
                        B
not mistreated or undone
C#   **B**
and if I find that place
              C#
I ll keep my mouth shut
                        B
cause I won t be there alone
                C#
and if you re standing there with me
B   **C#**
I ll swear it s a lie and I ll still believe it
        C#   **B**   **A** - **E**
cause I came and I spoke and you ran
            C#   **B**
and didn t even wait to hear the words
A   **E**
or see the look in my eyes
          C#   **B**   **A**   **E**
cause I bled and you watched and I cried myself to sleep
                C#   **B**
came to wipe my tears away but you

```
A                   E
couldn t look in my eyes again
                C#  (play intro rhythm and lead line)
because of the love for me
```
