### Guster

This is my first tab, be as brutally honest as you can. There is no book for with this tabbed out in it, and there s no really detailed tab out there, so I thought I d do about it. I can only get the intro, which is basically the only thing that needs tabs. The rest of the song is basically chords and lead guitar, and there s too much for me to discern what s going on in those parts of the song. So if anyone wants to tab out, send it to \* and I ll put that in here.
