

Wind It Up
Gwen Stefani

F - F#

High on the hills with the lonely goatherd, lay-od-lay-od-lay-he-hoo

F - F# - F - C - F

Yodell back with the girl and goatherd, lay-od-lay-od-low

F - F#

Wind it up

Wind it up, uh, uh, uh, uh

Wind it up uh, uh, uh, uh

F - F# - F - C - F

Yodellay, yodallay, yodal-low

(yeah)

This is the key that makes us wind up

When the beat comes on, the girls all line up

And the boys all look, but no, they can't touch

But the girls want to know why the boys like us so much

They like the way we dance, they like the way we work

They like that way that l.a.m.b. is going across my shirt

They like the way my pants, it compliments my shape (she's crazy, right?)

They like the way we react every time we dance

Every time the bass bangs, realize it calls your name

Let the beat wind you up, and don't stop till your time is up

Get in line now

F - F#

Up, uh, uh, uh, uh

Wind it up, uh, uh, uh, uh

Wind it up, uh, uh, uh, uh (come on)

Wind it up, uh, uh, uh, uh

F - F# - F - C - F

Yodellay, yodallay, yodal-low

You've got to let the beat get under your skin

You've got to open up, and let it all in

But see, once it gets in, the poppin' begins

And then you find out, why all the boys stare

They're trying to bite our style

Trying to study our approach

They like the way we do it, so original

I guess that they are slow, so they should leave the room

This beat is for the clubs, and cars that go

Every time the bass bangs, realize it calls your name

Let the beat wind you up, and don t stop till your time is up
Get in line now

Uh, uh, uh, wind it up, uh, uh, uh, uh
(you ll ready) uh, uh, uh, uh
Wind it up, uh, uh, uh, uh
Wind it up, uh, uh, uh, uh
Wind it up, uh, uh, uh, uh
Yodellay, yodallay, yodal-low

Uh huh, it s your moment
Uh huh, come on girl, you know you own it
Uh huh, you know your key is still tick-tockin
Hell yeah, and you know they re watchin

Get it girl, get it, get it girl
Get it girl, get it, get it girl
To the front, to the side,
To the back, but don t let him ride
Keep goin girl, it s your night
Don t let him steal your light
I know he thinks you re fine and stuff
But does he know how to wind you up?
(come on)

Wind it up, uh, uh, uh, uh
Wind it up, uh, uh, uh, uh
Wind it up, uh, uh, uh, uh
Wind it up, uh, uh, uh, uh
Yodellay, yodallay, yodal-low, hey!
