Afterlife (Dickinson)
Hailee Steinfeld

```
A                        C#m
   Red eyes, like the smoke we rise
      B                  F#m
As the candle s burning low
A                  C#m
   Trust me in whatever you like
        B               F#m
Are you playing with me?

A                          C#m
Every time your name, it leaves my lips
B                              F#m
Burning still, like words left unsaid
A                        C#m
Fire in my veins, drink deeply, love
    B          F#m
Remind me I m alive

A                              C#m
  Will you love me when my heartbeat stops?
        B                              F#m
When my heartbeat stops, will you stay mine? (Mine)
A                          C#m
  Will you promise me you ll search for us?
         B              F#m
Will you find me after life? (Life)
A          C#m
  Oh, for better or for worse
     B                            F#m
Will death be our last kiss, my love? (Love)
A                          C#m
  Will you promise me you ll search for us?
         B              F#m
Will you find me after life? (Life)

A
  My ear is buzzing
        C#m
Oh, I m trapped, no one s coming
B                 F#m
  Immortality is bliss
A                   C#m
  You put me down, then put me on a pedestal
            B                    F#m
Now that I m gone, you re gonna miss me
