```
I won t fall, into the arms of the one who turned on me
It s getting too dark for me to see
So I keep flashing back to when we met
We were better then, better then, better then, better then
I held you I didn t have to share it then
Better then, better then, better then, better then
Now my mind is taking me back to this
Too much time to think about what it is
What made us fall apart
Well don t need to beg cause you ll never get it again
 Cause I m better off this time so not this time
No no not this time around
Oh I m better off this time so not this time
Cause I found out, yeah I found out now
I m better off this time so not this time
No baby not this time around
Oh I m better off this time so not this time
Cause I found out, yeah I found out now
Oh you know I m better off this time, better off this time (yeah)
Oh you know I m better off this time, better off this time (yeah)
Oh you know I m better off this time,
Ha Cause I found out, I found out now
Oh you know I m better off this time, better off this time (yeah)
Am
Oh you know I m better off this time, better off this time (yeah)
