**E**                            **Bm7**  
We used to be alive  
                                 **A**  
We used to be happy  
                                 **Am**  
These irrelevant thoughts  
   **E-**  
Keep running into my head

**E**                            **Bm7**  
We used to be in peace  
                                 **A**  
But now we re both weary  
                                 **Am**  
So tell me the truth  
   **C#m--**  
Are we falling apart

Chorus:

**-A**                            **B**  
Oh.. are we running for our lives  
**C#m**            **A**                            **B**  
The truth is I want you now  
                                 **G#m**                            **C#m--**  
Like I wanted you last time  
**A**            **E**                            **G#**                            **C#m**  
Are we headed to the end of this line  
**B**    **A**  
Gone to the other side

**E**                            **Bm7**  
This place is so serene  
                                 **A**  
Swallowed by sadness  
                                 **Am**

This picture is not

**E--**

What I have been looking for

**E** **Bm7**  
We've never been apart

**A**  
And now you're drifting

**Am**  
Further away

**C#m--**  
Further away from me

Chorus:

**-A** **B**  
Oh.. are we running for our lives

**C#m** **A** **B**  
The truth is I want you now

**G#m** **C#m--**  
Like I wanted you last time

**A** **E** **G#** **C#m**  
Are we headed to the end of this line

**B** **A**  
Gone to the other side

Interlude: **E-F#m-G#m-F#m**

**E** **F#m**  
Can you feel

**G#m** **F#m**  
Can you feel it

**E** **F#m**  
Can you feel

**G#m** **F#m--**  
Can you feel it

**E**  
It's all coming back

**F#m** **G#m-F#m-**  
It's all coming back

**E**  
It's all coming back

**F#m** **G#m-F#m-**  
It's all coming back

**E-F#m-G#m-F#m**  
to you...

**E** **Bm7**  
I used to think we're done

**A**  
Back from beginning
