

The Silence
Halestorm

[Verse 1]

G
Found one of your old mixtapes
Am G C
Remembering listening to grace, I do
G
But we were driving to DC
Am G C
I was drunk in your backseat, I know

[Pre-Chorus]

D Em
Nothing will ever be
D c
Like when were seventeen
D Em
The stars will rearrange
D C
The sun will fade away
D Em
Everyone will change
D C
But we will still remain
G
And outlast the pyramids

[Chorus]

G C G
I will feel you
G C G
I will see you
G C G
I will hear you
C G C G
After the silence

[Verse 2]

G
Remember all the Philly nights

Driving down I-95

Singing in a smokey room

Am G C

When we had everything to lose, I do

G

And when we got some room to breathe

You said that you would marry me

But even if we never do

Am G C

I will always be with you, I know

[Pre-Chorus]

D Em

That nothing will ever be

D C

Like when we were twenty-three

D Em

Maps will rearrange

D D

And blue will turn to grey

D Em

Everything will change

D C

But we will still remain

G

And outlast the pyramids

[Chorus]

G C G

I will feel you

G C G

I will see you

G C G

I will hear you

C G C G

After the silence

[Bridge]

D C G

The oceans can burn for all I care

D C D Em

And in the ashes I'll meet you there

D C D Em

I know someday the moon will blow away

D C

And all fish will decay

D Em

Everything will change

D G G

But we will still remain and outlast the pyramids

[Chorus]

G

I will feel you

I will see you

G **C**

I will hear you

G **C** **G**

And I will keep you

C **G**

After the silence

C **G**

After the silence

C **G**

After the silence

C **G** **C** **G**

Silence, silence
