

**After That**  
**Haley Blais**

[Verse]

I remember running laps to get to you  
Feeling my legs give out  
Laying with the Earth behind my back  
And shades of blue covered my eyes and mouth

[Chorus]

I laid there for so damn long  
I saw things come and leave  
I saw things change and grow  
And then there was only me

[Verse]

And if I could save myself from moving on  
Maybe I ll be younger than I ever was  
Will you remember me when I m gone?  
And after that, and after that  
And after that, and after that
