

Need It

Half Moon Run

[Intro] Am G C Fmaj7 2x

[Verse 1]

In a dream, I was untrue  
Shouted in sweats, And I knew it was you  
All the while as I traced your spine  
Tore out my hair as my peace of mind

[Chorus]

Well if you breathe in, I ll breathe in  
Slowly let go  
If you need it, Then I need it,  
Only we ll know

[Verse 2]

Can t be the same, As we lie in a lie  
Knowing full well, Your virtue s my vice  
In the night we are one, Til the moment is gone,  
Til my race has been run

[Bridge]

And those sorry words, Make me not know my mind  
And they re so afraid for use

[Breakdown]

Am G C Fmaj7 2x

[Outro]

And if you breathe in, Then I ll breathe in  
And only we ll know
