

Private Eyes
Hall & Oates

Title: Private Eyes

Artist: Daryl Hall & John Oates

Written by: Daryl Hall, Warren Pash, Sara Allen & Janna Allen

No offense to anyone out there, but the only tabs I could find for this song were

75% of the chords were just dead wrong. So I decided to tab a version that you can play on one guitar.

Bear in mind that many of the "interesting" chords in this song arise from the piano and

guitar playing slightly different things, so some shapes get a bit tricky. Feel free to

out the passing tones (like Dm/A) or make substitutions (G for G/A).

But do NOT substitute for the F/G chord! That took me a while to find but it's the

secret of the entire song.. and further proof of the underrated genius that is Hall & Oates.

No lead guitar transcribed (it's mainly simple lines and power chords), and for the

part, use triads up the neck in a steady eighth note pattern. Happy playing!
