

Coming Down  
Halsey

**F#m**

I found God

**A**

I found him in a lover

**D**

When his hair falls in his face

**Bm**

And his hands so cold they shake

**(C#m) F#m**

I found the Devil

**A**

I found him in a lover

**D**

And his lips like tangerines

**Bm**

And his color coded speak

**(C#m) F#m**

Now we re lost somewhere in outer space

**A**

In a hotel room where demons play

**D**

They run around beneath our feet

**Bm**

**C#m**

We roll around beneath these sheets

**F#m**

I ve got a lover

A love like religion

**A**

I m such a fool for sacrifice

**D**

It s coming down, down, coming down

**Bm**

**(C#m)**

It s coming down, down, coming down

**F#m**

I ve got a lover and I m unforgiven

**A**

I m such a fool to pay this price

**D**

It s coming down, down, coming down

**Bm**

**F#m**

It s coming down, down, coming down

**F#m**

I found a martyr

**A**

He told me that I d never

**D**

With his educated eyes

**Bm**

And his head between my thighs

**C#m**

**F#m**

I found the savior

**A**

I don t think he remembers

**D**

Cause he s off to pay his crimes

**Bm**

And he s got no time for mine

**(C#m)**

**A**

Every single night pray the sun ll rise

**D**

**Bm**

Every single time make a compromise

**F#m**

**A**

Every single night pray the sun ll rise, but

It s coming down, down, coming down
