

Empty Gold
Halsey

Am **F**
I, I must confess
 C
How hard I tried to breathe
 G
Through the trees of loneliness.
Am **F**
You, you must confess
 C
How hard you need to see
 G
Through the heart beating out my chest.

Am
Feel like we ve been falling down
F **C** **G**
Like these autumn leaves.
 Am
But baby don t let Winter come,
F **C** **G**
Don t let our hearts freeze.

Am F
 C **G**
If the morning light don t steal our soul,

Am F
 C **G**
We will walk away from empty gold.

Am **F**
Dark as midnight sun,
C
Smoke as black as charcoal
 G
Fills into our fragile lungs.
Am **F**
Cause when our demons come,
C
Dancing in the shadows,
 G
To a game that can t be won.

We re the underdogs in this world alone

C **G**

I m a believer, got a fever running through my bones.

Am **F**

We re the alley cats and they can throw their souls

C **G**

They can brake our hearts, they won t take our souls.

If the morning light don t steal our soul,
