Forever (Is a Long Time)
Halsey

[Intro]

```
D           G           A
 I spent a long time watering
     D                  Bm
A plant made out of plastic
        E                        A           D
 And I curse the?ground?for growing green
D       G        A        F#              Bm
I?spent a long time substituting honest?with sarcastic
        E                 A        D
 And I curse my tongue for being mean
```

[Primeira Parte]

```
       Em                    Bm
 And weightless, breathless restitute
 Em               Bm
 Motionless and absolute
     Em         Bm                  E           F#
 He cut me open, sucked the poison from an aging wound
       Em           Bm
 Now fifty thousand war cadets
         Em             Bm
 Would cower at this small brunette
     Em                  Bm
 To my surprise, not six feet high
        F#
 Would reach and grab the moon if I
       Bm           F#
 Should ask or just imply
                         B
 That I wanted a bit more light
            G
 So I could look inside his eyes
             Gm
 And get the colors just right
 D                  G          D  Bb  Gm
 Just right, just right, just
```

```
( Dm  Bb  Gm  Dm  Bb  Gm )
( Dm  Bb  Gm  Dm  Bb  Gm )
( Dm  Bb  Gm  Dm  Bb  Gm )
( Dm  Bb  Gm  Dm  Bb  Gm  Dm )
```

```
      Gm                        A7
 Build love, build God, build provinces
```

```
        Dm
Build calluses, break promises
       Gm                    A7                      Dm
 Cause I could never hold a perfect thing and not demolish it
          Gm                          A7
What am I thinking? What does this mean?
              Dm            F
How could somebody ever love me?
 G                                        A
Talk to your man, tell him he s got bad news comin
```
