Crime Dramas Suck
Hank Green

This is exactly how Hank plays it. It s pretty simple.

Intro: **C G C G C**
Verse 1:
    C   **G**
There s a place where you don t wanna be
   C   **G**
Where people die constantly
     C   **G**
And they never die in normal ways
     C   **G**
It s preposterous but still cliche

Bridge 1:
     C   **G**
When your drug dealer s aunt kills your mom in a duel
   C   **NC**
By chopping off her head with a scythe in a pool
    D
Well they re not saying it makes sense
    E
They re just interpreting the evidence

Chorus:
      C   **G**
This is the plot to every television crime show
C   **C**   **G**
 From CSI to Columbo and I think you know what s in store
   C   **G**
The guy we met in the first fifteen minutes
C   **NC**
 Will come back because you know he did it
C   **G**
I don t think they re trying anymore
       C
And I m getting bored

Verse 2:
C   **G**
There was semen all over the crime scene
     C   **G**
So they use the super-fancy semen testing machine
    C   **G**
And the DNA database gets a hit
    C   **G**
But it looks like he might still get away with it

```
Bridge 2:
        C                   G
But the final piece of evidence
C                        C
Totally stumps the bad guy s defense
     D
And he breaks down in front of everyone
     E
And tells them exactly how it was done

Chorus:
              C                   G
This is the plot to every television crime show
C                    C                          G
 From CSI to Columbo and I think you know what s in store
     C                G
The guy we met in the first fifteen minutes
C                    NC
 Will come back because you know he did it
C                        G
I don t think they re trying anymore
                  C
And I m getting bored

Interlude: C

Verse 3:
        C           G
By the middle of the first season
C                        G
Murder is eclipsed by sexual tension
       C                  G
And I guess that probably happens a lot
       C                        G
Since crime-solving people are always so hot

Bridge 3:
          C                 G
But then a serial killer kidnaps the girl
           C                       C
And they promise to save her if it costs them the world
         D
And they find her two seconds before she dies
           E
And they hug and they laugh and they screw and they cry

Chorus:
              C                   G
This is the plot to every television crime show
C                    C                          G
 From CSI to Columbo and I think you know what s in store
     C                G
The guy we met in the first fifteen minutes
```

```
C                             NC
 Will come back because you know he did it
C                                   G
I don t think they re trying anymore
                    C
And I m getting bored
*End on C*

That was a one-taker... take one-r... one... one-i-fier...
