```

[Verse]

```

          AM                C
Well, oh what a feelin  that burns down low.
          D                AM
When ya ain t got no where to turn or no where to go.
          C
It makes me feel like sometimes i m outta control.
          D                AM
So I m gonna get wasted with all my country heroes.
```

[Chorus]

```

          AM                C
I m drinkin  some George Jones and a little bit of Coe.
          D                AM
Haggard s easin  my misery and Waylon s keepin  me from home.
          AM                C
Hank s givin  me those high times. Cash is gonna sing it low.
          D                AM
An  i m here gettin  wasted here just like my country heroes.
```

[Solo break]

AM C D AM

[Verse]

I m drinkin that whiskey out of that glass.
And if that ain t country, boy, you can kiss my ass.
I wanna hear them old songs, nothin of the new.
Cause this might be the last time I m gonna see you.

[Chorus]

I m drinkin some George Jones and a little bit of Coe.
Haggard s easin my misery and Waylon s keepin me from home.
Hank s givin me those high times. Cash is gonna sing it low.
An i m here gettin wasted here just like my country heroes.
I m here gettin wasted, with all my country heroes.

(slowly strum AM up to end the song.)
