Meet me at night tonight and we ll go down by the river side
C7 **F**
Take along some moonshine our love is much too strong for wine
C7 **F**
And we ll drink it up and make country love

Bb **F** **Bb** **F**
Some folks fall to the city just to do that lovin dirt
Bb **F** **Dm** **Bb** **C7**
But just get me the smell of pine trees makin love in the warm country air

Lord you know it feels so fine to hold that country girl of mine
And lay here in the moonlight and do what feels so right
To smooth and hug and make a lotta country love

Chorus

So tonight when the crickets start singin the songs
That s when me and you will be gettin it off
To who I would be who whoin cause he ll see what we re doin
