

**Honey, Won't You Call Me**

**Hank Williams Jr.**

**G** **C** **D** **G**  
I can see the home fire burning and the kids playing in the yard  
**G** **A** **D**  
As the red sun is slowly fading on this rock and roll cowboys farm  
**C** **D** **Bm** **C**  
Now I wish had my woman to kiss and love and hold me tight  
**Am** **D** **C** **D** **G**  
But the only thing in my arms is my guitar tonight

**C** **G**  
Now Honey won t you call me  
**F** **G**  
It gets so lonely on the road  
**C** **Bm** **F**  
If I heard your sweet voice, oh darlin  
**F** **G**  
I d turn around and come back home

Well I dreamed that I had you with me, I smelled the perfume in your hair  
You were laying so warm beside me telling me how much you care  
But I woke up without you darlin to tell me everything s alright  
But the only thing in my arms is my guitar tonight
