Moaning The Blues

C

When my baby moved out and the blues moved in

There wasn't nothing I could do

But mosey around with my head in my hands

G7

C

Lord what am I coming to

G7

C

I just keep moaning moaning the blues

F

C

I wrote a nice long letter

F

C

Saying mama please come home

D7

Your daddy is lonesome

G7

And all I do is moan

C

I been loving that gal for so doggone long

I can't afford to lose her now

I thought I was right but I must of been wrong

G7

C

Cause my head is starting to bow

G7

C

And now I'm moaning moaning the blues

If you want a good gal to stay around

You gotta treat her nice and kind

If you do her wrong she'll leave this town

G7

C

And you'll almost lose your mind

G7

C

Then you'll moaning moaning the blues

F

C

Aw baby baby baby

F

C

Honey baby please come home

D7

G7

Your daddy is lonesome and all I do is moan

C

I promise you baby that I ll be good

And I ll never be bad no more

I m sitting here waiting for you right now

G7

C

To walk through that front door

G7

C

Then I ll stop moaning moaning the blues
