

I Wanna Know You
Hannah Montana

C Dm Bb F

... that s it, for the whole song.

When I saw you over there
I didnt mean to stare
But my mind was everywhere
I wanna know you

Gonna guess that youre the kind
To say whats on your mind
But you listen when I have something to show you

Theres a mark above your eye
You got it in July
Fighting for your sisters reputation

You remember peoples names
(And violent times are lame?)
So I bring you flowers just for no occasion

I wanna know you

I wanna go there where you go
I wanna find out what you know
And maybe someday down the road
Sit back and say to myself
Yeah, I thought so

You smile and never shout
You stand out in a crowd
You make the best of every situation

Correct me if Im wrong
Youre fragile and youre strong
A beautiful and perfect combination

I wanna know you

I wanna go there where you go
I wanna find out what you know
And maybe someday down the road
Ill sit back and say to myself

I like how you are with me
In our future history
And maybe someday down the road
Ill sit back and say to myself

Yeah, I thought so

I thought so

I wanna know you

I wanna go there where you go
I wanna find out what you know
And maybe someday down the road
Ill sit back and say to myself

I like how you are with me
In our future history
And maybe someday down the road
Ill sit back and say to myself
Yeah, I thought so
