

And I Waited
Hanson

Intro : **F#m - C#m** (2x)

Verse: **F#m - C#m** (just Repeat through the verse)

Is there something wrong with the way you feel?
Cause you ve been acting like you re overloaded
Been going on like, you got something to prove
You better keep it in mind
Maybe it s too hot, out on the black top,
nobody else is gonna save you
you re pretty uptight, for being downtown.
I ve been all up all night.

Chorus:

F#m
And I waited
C#m
Waited for something to arrive
D **E**
Gotta keep this beat alive, but she keeps me satisfied
F#m
And I waited
C#m
Waited for something to be real
D **E**
When it s pouding in your ear, doesn t matter what you feel
D **E** **F#m**
Where do we go from here?
D **E** **F#m**
The future s so unclear
D
you re such a doll my dear

SOLO 1

Verse:

Well there s nothing wrong, with the way you look
But you ve been acting like you re up to no good
you re playing me like I ve got nothing to lose
You better keep it in line
I m not gonna get off, until the last stop,
and nobody else is gonna save me
Turn the heat up, for the meltdown
I ve been up all night

Chorus:

And I waited
Waited for something to arrive
Gotta keep this beat alive, but she can't be satisfied
And I waited
Waited for something to be real
When it's pounding in your ear, doesn't matter what you fear
Where do we go from here?
The future's so unclear
you're such a doll my dear

SOLO 2

And I waited!
