

**And I Waited**  
**Hanson**

Intro : **Gm** - **Dm** (2x)

Verse: **Gm** - **Dm** (just Repeat through the verse)

Is there something wrong with the way you feel?  
Cause you ve been acting like you re overloaded  
Been going on like, you got something to prove  
You better keep it in mind  
Maybe it s too hot, out on the black top,  
nobody else is gonna save you  
you re pretty uptight, for being downtown.  
I ve been all up all night.

Chorus:

**Gm**  
And I waited  
**Dm**  
Waited for something to arrive  
**Eb** **F**  
Gotta keep this beat alive, but she keeps me satisfied  
**Gm**  
And I waited  
**Dm**  
Waited for something to be real  
**Eb** **F**  
When it s pouding in your ear, doesn t matter what you feel  
**Eb** **F** **Gm**  
Where do we go from here?  
**Eb** **F** **Gm**  
The future s so unclear  
**Eb**  
you re such a doll my dear

SOLO 1

Verse:

Well there s nothing wrong, with the way you look  
But you ve been acting like you re up to no good  
you re playing me like I ve got nothing to lose  
You better keep it in line  
I m not gonna get off, until the last stop,  
and nobody else is gonna save me  
Turn the heat up, for the meltdown  
I ve been up all night

Chorus:

And I waited  
Waited for something to arrive  
Gotta keep this beat alive, but she can't be satisfied  
And I waited  
Waited for something to be real  
When it's pounding in your ear, doesn't matter what you fear  
Where do we go from here?  
The future's so unclear  
you're such a doll my dear

SOLO 2

And I waited!
