if you could find your way up here I d find mine out just as quickly
 by the time you made it up to Trinidad I d be hiding out in salt lake city
 in the heart of the fire in the belly of the beast
 the city I was born in never looked that good to me
 cuz I m the ultimate killjoy the ultimate pain
 the best ever nomad at staying in place
 if you could find your way up here I d find mine out just as quickly
 by the time you made it up to Trinidad I d be hiding out in salt lake city

no amount of Xanax or Lexapro or Celexa will ever fix this
 serotonin machine s broke could I get you something different
 It s been this way since I was 12 nothing really changes
 except the fact my medicines are now slightly less than prescription
 and I keep having this dream
 that they find you under a bridge
 body all torn and mangled
 and eyeballs missing from their sockets
 after months of investigation they will find them
 You re proud but also scared of me
 and I think that that makes sense cuz out of everyone you know well I m not one
 of them
 You re proud but also scared of me
 and I think that that makes sense cuz out of everyone you know well I m not one
 of them
