**Dm**

I m the one, I am ignored  
When your teenagers are bored

**A**

Foolishness will hand their careless lives to me  
They don t fear what they don t know  
Through their ignorance I glow

**Dm**

As they flicker from this dream I ll set them free

**Dm**

Through cancer and disease  
I ll take with me whom I please

**Bb**

No need to run, you can t fight(?) and face defeat

The religion and deceit

**Dm**

And science and conceit

**A**

**Dm**

Try to stop me, but in the end I can t be beat

**Dm**

I ll be at it once again  
You ll have faced me in the end

**A**

It should be fun, as I swat you down like flies  
So when it s time for you to go  
Don t you cry, cause don t you know

**Dm**

It s appointed for every man to die

**Dm**

So what happens when you re dead?  
Ain t my problem but I read

**Bb**

You ll burn in Hell, for all eternity  
Life wasn t all that great

**F**

So please make no mistake

**A**

**Dm**

It gets much worse, after you ve met me

**Bb** **F** **A** **Dm**  
 I m the reason your sick ones pray to God as they lie there still  
**Bb** **F** **A**  
 I m the reason they cry out, because I kill  
 The different sources I may use...

[Rhythm changing part]

**Dm Bb F A**  
**Dm Bb**  
 As I close my eyes to die  
**F A**  
 I will not fear, I will not cry  
**Dm Bb**  
 As I travel down this road  
**F A**  
 I gave my oath, I took my load  
**Dm Bb**  
 As I lay my head to rest  
**F A**  
 Oh God, you know! I did my best!  
**Dm Bb**  
 Was it you, or I who turned?  
**F A**  
 Whose fault is it That I must burn

**Dm Bb**  
 Whose fault is it? Whose fault is it?  
**F A**  
 Whose fault is it? That I must burn
