

Incomunicado
Harvey Danger

Album: Little By Little

Tuning: Standard (EADGBE)

This is a great and easy song, by a great band. If you re just learning guitar this be real easy. It s only my second submitted tab, and I literally figured the guitar 2 part in five minutes, so it might not be completely accurate. If you hear something I missed, tweak it to your liking, you re all musicians. This should be a good basis.

Chords:

C Am G F D Bar: C Am G D
e|-0--0---3--1--2-----3--5---3--5---|
B|-1--1---3--1--3-----5--5---3--7---|
G|-0--2---0--2--2-----5--5---4--7---|
D|-2--2---0--3--0-----5--7---5--7---|
A|-3--0---2--3--0-----3--7---5--5---|
E|-x--x---3--1--x-----x--5---3--x---|

The bar chords are an alternative to the open chords. It might make it easier, it might it harder. I think the open chords sound better, but it s up to you.

I think there is also some really quiet guitar work under the verse, but it s probably to the intro and pre-verse. Good luck figuring it out.
