Little Guitar Riff:

```
E-----

G-----  
D-7-5-4--5--5-4---4-1---  
A-----

```

Verse 1: (No Guitar)

You are weak, I am strong, and
I've done nothing but lead you on,? she said.
(Piano Fill)

Chorus:

```
      G              A#  
Drove around all night,  
      D              High E  
stoplights were interminable,  
      G              A#  
But I get along all right  
      D              HighE              G  
as long I don?t have to interact  
      A#              D              HighE  
With anyone else on a meaningful level,  
      G              A#              D  
I'll be fine Because I don?t want to marry my convictions,  
(not right now)
