## E

Ice age

## G\#m

Don t cry baby

## A G\#m <br> F\#m

Cause we ll ride it where it goes

A G\#m

## F\#m

And we ll dress up for the cold

## E

There s gonna be nice days

## B

In the ice age

## E

And I learned when $I$ was in school

## G\#m

It only moves an inch or two

## A G\#m F\#m

Every other day
A

## G\#m F\#m

So I think we ll be okay

E
There s gonna be nice days

## B

In the ice age

## E

And there s little left to say

## G\#m

That our love won $t$ melt away

## A

G\#m
F\#m
So have another glass of wine

## A

G\#m
F\#m
And I think it will be fine

## E

There s gonna be nice days

## F\#

And the saddest thing would be

## A\#m

Is if you up and said to me
B
A\#m

G\#m
That you re tired of running scared
B A\#m G\#m

And you really don $t$ care

C\#
About the ice age, baby

G\#
So maybe we lie down

B\#m
And we kiss there on the ground

C\# B\#m A\#m
As we re taken by the ice

C\# B\#m
A\#m
And in fact it might be nice

## G\#

There s gonna be nice days

D\#
In the ice age

## A

And in ten thousand year s time

## C\#m

When we re found there still entwined
D C\#m
Bm

In a near-eternal kiss

That would impress the scientists

## A

There s gonna be nice days

## E

In the ice age
