Seven By Seven

=====

**Am**            **G**                            **F**                            **E**  
Lost am I in this world of timelessness and woe  
**Am**                    **G**                            **F**                            **E**  
Can I find the doorway through which I must go  
**Am**                    **G**                            **F**                            **E**  
Is the key to this plane too much for me to try to gain  
**Am**                    **G**                            **F**                            **E**  
Is the passport to this world my astral soul

**Dm**                            **Cm**  
Seven signs rode on seven stars  
**Dm**                            **Cm**  
Seven ways to find the long lost bards  
**Dm**                            **Cm**  
Seven days became seven years  
          **Dm**                            **Cm**  
while Pocus laughed and called foul jeers  
**Dm**                            **Cm**  
Seven times he cursed their seven tears  
          **Dm**                            **Cm**  
Each one became their seven fears  
**Dm**                            **Cm**  
What is lost is never gained again  
**Dm**                            **Cm**  
I cast the spell that eternity chained  
**Dm**                            **Cm**  
No more to cry o mortal soul  
          **Dm**                            **Cm**  
the astral path is now your fortuitous role

This tab is not my own work and is made by the talented folks at starfarer.net and is from their collection of tabs! I am simply transferring it here for simplicities sake.
