

Nothing In This World Will Ever Break My Heart Again
Hayden Panettiere

Capo on 3

D

I finally kept my pride
And hailed a cab

D

Those cuttin words you said

A

G

Were the last stab

D

Thereâ€™ll be no tears this time
Theyâ€™ve all dried up

D

No more sweet poison

A

G

I already drank that cup

Em

This tunnelâ€™s dark

G

But thereâ€™s a little light glowing

Em

A

Bright enough for me to run toward knowing

D

A

Nothing in this world will ever break my heart again

Nothing in this world will ever break my heart again

No pain this life will put me through

Em

D

Will ever ever hurt like you

(song follows same pattern)

Donâ€™t need a miracle

A superhero

Thereâ€™s only one way up

When youâ€™re at zero

You took my innocence

But it was knowing

No i donâ€™t need you

And that made me a woman

I paid my dues

But thatâ€™s a debt iâ€™m done paying

Iâ€™m standing strong

But Iâ€™m still on my knees praying

Nothing in this world will ever break my heart again
Nothing in this world will ever break my heart again
No pain this life will put me through
Will ever ever hurt like you
