

**Nothing In This World Will Ever Break My Heart Again**  
**Hayden Panettiere**

Capo on 3

**Eb**

I finally kept my pride  
And hailed a cab

**Eb**

**Bb**

Those cuttin words you said

**G#**

Were the last stab

**Eb**

Thereâ€™ll be no tears this time  
Theyâ€™ve all dried up

**Eb**

No more sweet poison

**Bb**

**G#**

I already drank that cup

**Fm**

This tunnelâ€™s dark

**G#**

But thereâ€™s a little light glowing

**Fm**

**Bb**

Bright enough for me to run toward knowing

**Eb**

**Bb**

**Fm**

**Bb**

**Eb**

**Bb**

Nothing in this world will ever break my heart again

**Eb**

**Bb**

**Fm**

**Bb**

**Eb**

**Bb**

Nothing in this world will ever break my heart again

**Fm**

**G#**

No pain this life will put me through

**Fm**

**G#**

**Eb**

Will ever ever hurt like you

(song follows same pattern)

Donâ€™t need a miracle

**Bb** superhero

Thereâ€™s only one way up

When youâ€™re at zero

You took my innocence

But it was knowing

No i donâ€™t need you

And that made me a woman

I paid my dues

But thatâ€™s a debt iâ€™m done paying

Iâ€™m standing strong

But Iâ€™m still on my knees praying

Nothing in this world will ever break my heart again  
Nothing in this world will ever break my heart again  
No pain this life will put me through  
Will ever ever hurt like you
