

Nothing In This World Will Ever Break My Heart Again
Hayden Panettiere

Capo on 3

F#
I finally kept my pride
And hailed a cab
F# **C#**
Those cuttin words you said
B
Were the last stab
F#
Thereâ€™ll be no tears this time
Theyâ€™ve all dried up
F#
No more sweet poison
C# **B**
I already drank that cup
G#m
This tunnelâ€™s dark
B
But thereâ€™s a little light glowing
G#m **C#**
Bright enough for me to run toward knowing

F# **C#** **G#m** **C#** **F#** **C#**
Nothing in this world will ever break my heart again
F# **C#** **G#m** **C#** **F#** **C#**
Nothing in this world will ever break my heart again
G#m **B**
No pain this life will put me through
G#m **B** **F#**
Will ever ever hurt like you

(song follows same pattern)

Donâ€™t need a miracle
C# superhero
Thereâ€™s only one way up
When youâ€™re at zero
You took my innocence
But it was knowing
No i donâ€™t need you
And that made me a woman
I paid my dues
But thatâ€™s a debt iâ€™m done paying
Iâ€™m standing strong
But iâ€™m still on my knees praying

Nothing in this world will ever break my heart again
Nothing in this world will ever break my heart again
No pain this life will put me through
Will ever ever hurt like you
