

A Bad Liver And A Broken Heart
Hayes Carll

E♭ **G#** **E♭**

Arkansas my head hurts

E♭ **G#** **E♭**

I d love to stick around and maybe make it worse

E♭ **G#** **E♭**

I got a girl out in Henriatta

E♭ **G#** **E♭**

And her loves like tornado weather

G#
It s girls like this that keep me tryin
Eb
She goes off like an air raid siren
G#
Come in cleanly torn apart
Eb G# Eb
A Bad liver and a broken heart
Eb G# Eb
A Bad liver and a broken heart

Indian summer Oklahoma sunset
If there s a nicer place I haven t been there yet
I m standing outside of the blue door
Too tired to sleep too drunk for more

It s night s like these that keep me tryin
A woman always knows when a man is lyin
It ain t me I m just playing a part
A bad liver and a broken heart
A bad liver and a broken heart

I ll get old before I m good at this
Who s the president what year is it
Doesn t anyone care about truth anymore
Maybe that s what songs are for

Your the wind and I m on fire
This line of work no one retires
Come in cleanly torn apart
A bad liver and a broken heart
A bad liver and a broken heart
A bad liver and a broken heart
A bad liver and a broken heart
