

**A Bad Liver And A Broken Heart**  
**Hayes Carll**

**E** **A** **E**  
Arkansas my head hurts  
**E** **A** **E**  
I d love to stick around and maybe make it worse  
**E** **A** **E**  
I got a girl out in Henriatta  
**E** **A** **E**  
And her loves like tornado weather

**A**  
It s girls like this that keep me tryin  
**E**  
She goes off like an air raid siren  
**A**  
Come in cleanly torn apart  
**E** **A** **E**  
A Bad liver and a broken heart  
**E** **A** **E**  
A Bad liver and a broken heart

Indian summer Oklahoma sunset  
If there s a nicer place I haven t been there yet  
I m standing outside of the blue door  
Too tired to sleep too drunk for more

It s night s like these that keep me tryin  
A woman always knows when a man is lyin  
It ain t me I m just playing a part  
A bad liver and a broken heart  
A bad liver and a broken heart

I ll get old before I m good at this  
Who s the president what year is it  
Doesn t anyone care about truth anymore  
Maybe that s what songs are for

Your the wind and I m on fire  
This line of work no one retires  
Come in cleanly torn apart  
A bad liver and a broken heart  
A bad liver and a broken heart  
A bad liver and a broken heart  
A bad liver and a broken heart
