

Fake Blue
Haywire

Fake Blue

Am **B**
Dream on, you little foul
C
Dream on�
Am **B**
Make me feel scared enough
C
To hold my breath every time
My body can�t catch my head
It hangs just all the way
You�re squeezing me
while I�m sucking my thumb
No faces to watch
No future to guess
It may sound sad
But I�m the only one who�s glad
I can�t hold on
I can�t be strong
No luck this time
This life�

Dm
Fake blue, colours you
Am E
The colour of my eyes
Am Dm
Fake blue is what you wear
Am E
it�s not true; it�s just a dream
It�s not fair�

Am **B** **C**

Dream on, you little fool

Dream on�

I won�t bend for you

Bends for you aren�t true

Is it me you�re looking for

Or should I leave the evil core

I�ve got a feeling that reached every place

Do you still think of me

Are you feeling happy now

�Cause still that spineless laugh signs you

Can�t you destroy more

To be sure you save your friends

I can�t hold on

I can�t be strong

No luck this time

This life�

Fake blue, colours you

The colour of my eyes

Fake blue is what you wear

it�s not true; it�s just a dream

It�s not fair�

Fake blue, colours you

The colour of my eyes

Fake blue is what you wear

it's not true; it's just a dream

It's not fair;
