CAPO 2 (chords relative to capo)

I've been looking for a tab for this song for a long time and haven't been able to
one so I decided to just make one.

Ok I don't know the names of some of these chords so I did my best. Some are just
variations of normal chords and can be hard to name so just look at the chord charts. In
of the chords you don't play the high e like normal. Thanks!
