Long way to neverland

(Play the note then upstrum), my first crack posting, not sure if lyrics are right,
please correct as required.

(**E** - **G** - **A**)
Break it down with a color lens
Gotta long lens comin round
With a bombed out girl scout
Laying south bound on the ground

Some here I don t get, some here I don t see
Go boys, comin down, And it s on to the f*ckin teeth

(**D** - **A**) (**E** - **G** - **A**)
It s a long way to neverland
And I m dying to shoot em down, keep em down for good
Yeah I might live dual lives
But here I am 20 year to the day Like I knew I would

(**E** - **G** - **A**)
Gettin stoned on a hot sand
Put on a call to Carlene
Get a bottle of drop down all the images from the stream
Do yourself a favor when you smell fear and when you run
Turn around and face it all
Just beat em to the f*ckin punch

(**D** - **A**) (**E** - **G** - **A**)
It s a long way to neverland
I m dying to shoot em down and keep em down for good
Yeah we might live dual lives
But Here I am 20 years to the day Like I thought I would
It s a long way to neverland
I m dying to shoot em down and keep em down for good

YEAH

(**E** - **G** - **A**)
Kneel down at the underground
With a science fictious start
Gotta have it all my way
So we re both done playin parts
Gotta soul and a string of whole
Poison tear drops in the sea
Grinded sands in an hour glass

Came down to him and me

(**D** - **A**) (**E** - **G** - **A**)
It s a long way to neverland
I m dying to shoot em down and keep em down for good
Yeah we might live dual lives
But Here I am 20 years to the day Like I knew I would
It s a long way to neverland
I m dying to shoot em down and keep em down for good
Keep em down for good, keep em down for good

(**Bb** - **A** - **E**) x 5

(**E** - **G** - **A**)
Break it down with a color lens
Gotta long lens comin down
Got a bombed out girl scout
Laying south bound on the ground
Some here I don t get
some here I don t see
Nothin left to see here, but the waves out on the beach.
