This isnâ \in $^{\mathbb{N}}$ t the best tab but I guess it works. But when they play this song they play it

in C# so if you want you can play those they sound pretty good these chords are just

easier to play and I think they sound really good. If you have any questions just email

me my email is christianfrancelesquivel@gmail.com id be glad to answer any questions you have

cause I figured it out by ear and the rhythms a little weird sometimes.
