```
We Were A Fire
Heather Morgan
[Intro]
[Verse]
You looked at me from across the room
        Am
Your smile shot an arrow through
My heart with the aim of a bullseye
You got me on the first try
I was fallin for ya, yeah I was
I was all in for ya maybe because
There was something that I couldn t explain
From the moment that you said my name
Then I fell into your arms
We settin off all the alarms
[Chorus]
             Am
We were a fire
Every touch fanned the flames
              Am
We were a fire
The kind you can t contain
Caught up in a crazy dream
   Every kiss was like gasoline
Burnin through our veins
We were a fire
```

[Verse]

Now I m never gonna be the same

```
Got carried away, yeah we couldn t help it
Tossed in the blaze, yeah I know you felt it
Like a passion that you can t fight
Out of control tryin to hold on tight
When you re runnin wild baby there s no cure
There for a while everything was a blur
But now there s ashes at my feet
That s all that s left of what we used to be
[Chorus]
                    Am
 Cause we were a fire
       G
 Every touch fanned the flames
               Am
 We were a fire
 The kind you can t contain
 Caught up in a crazy dream
    Every kiss was like gasoline
 Burnin through our veins
             Αm
 We were a fire
                                  Em D
                            Αm
Now I m never gonna be the same
Now I m never gonna be the same
[Bridge]
                   G/B
And even though we burned out in the end
                   G/B
I d still do it all over again
[Chorus]
             Am
                    G
We were a fire
                   mmmmmmm
              Αm
                   G
We were a fire
                   yeah, yeah
              Am
We were a fire
Every touch fanned the flames
```

Am

We were a fire

G :

The kind you can t contain

Am

Caught up in a crazy dream

С

Every kiss was like gasoline

G D

Burnin through our veins

Am

We were a fire

(Break) Em

Now I  ${\tt m}$  never gonna be the same
