G **C** **G**
What do you need to be high to be here

Em **C** **G**
In the shadows with the light coming through

Am **G** **Am** **G**
Lay me down lay me down, lay me down lay me down

What do you need to be warm to be real

And I m drifting but I m riding it too

Em **C** **G**
In the silence with your voice coming through

Lay me down lay me down, lay me down, lay me down

In the shadows with the light coming through
