

Valley Of Sound

Heather Nova

From what I can tell, this whole song is these 3 chords repeated throughout. So I m not gonna do it all the way down. I might be wrong though...

Verse

D A G

Move me

D A G

Don t try

D A G

Let the music

D A G

Reach me tonight

Push me over

Into something new

I ve been riding all day on a bus

Just to listen to you

I love I love I love I love that look

And your trespassed eyes

I love I love I love I love the way

You can make me cry

Sink me into

Stirred up sea

Something I keep drowning

Only you can do this to me

I love I love I love I love that look

And your trespassed eyes

I love I love I love I love the way

You can make me cry

Fill me up

Drive me down

Now I m alive

In the valley of sound

In the valley of sound

In the valley of sound

In the valley of sound

I love I love I love I love that look

And your trespassed eyes

I love I love I love I love the way
You can make me cry

Yeah, in the valley of sound,

Oooh, in the valley of sound
