I Dont Sleep Well
Hello Saferide

Hello Saferide - I Don t Sleep Well

Capo 1st fret

Source: http://www.swedetab.se/visaTab.php?id=1719

```
 C#    G#    Bbm
```
Bam bam bam... x 2

```
    C#         G#              Bbm
```
And suddenly, I donâ€™t feel fat anymore
```
  C#              G#            Bbm
```
I dont count my blackheads as a hobby
```
  F#              G#            C#  F#  Bbm
```
I dont count the marks on the wall
```
C#            G#          C#
```
And I dont sleep well at all

```
    C#         G#              Bbm
```
There is someone else right beside me
```
  C#           G#         Bbm
```
He kept every secret I told
```
  F#            G#                   C#  F#  Bbm
```
He giggled his way straight through fall
```
C#            G#          C#
```
And I dont sleep well at all

```
 C#    G#    Bbm
```
Bam bam bam... x 3
```
 C#    G#     F# Bbm F# Bbm
```
Bam bam bam...

```
Bbm       G#    Bbm         F#
```
I have seen too many movies
```
Bbm       G#    Bbm         F#
```
I have read too many books
```
        Bbm              G#        Bbm            F#
```
Im the kind that sees sun and brings an umbrella
```
Bbm       G#       Bbm        F#
```
I have been to fortune tellers

```
    C#              G#            Bbm
```
He knows when Im happy and nods when Iâ€™m sad
```
      C#              G#              Bbm
```

```
And he puts out when I come home drunk
      F#        G#                C#  F#  Bbm
And suddenly I stand real tall
C#             G#          C#
But I dont sleep well at all

        C#               G#              Bbm
And I know love will leave you all crooked
        C#               G#          Bbm
And I know heâ€™ll start sleeping around
          F#            G#          C#  F#  Bbm
Or start listening to symphony rock
      C#            G#                  Bbm  G#
Or throw out the key and change the lock
C#             G#          C#
But I dont sleep well at all

/Calle S
