

**When We First Met**  
**hellogoodbye**

The other tabs for this song involve a capo... well that s useless for anybody who wants play along on the bass or like me, the ukulele, so these are the chords minus capo. I it out on a piano and then tried it on ukulele and it sounded fine, but I don t know how sound on guitar since I don t play it. The ukulele changes while playing the B, I the guitar is playing B7 over the ukulele s B but the song sounds fine just playing B of the way through so do what you want.

Note: when playing the **F#** try and make it a high one, I bar the 9th fret of my ukulele play it an octave or two higher than middle C on the piano. Do what sounds right.

**B**

When we first met  
Your hair was long and brown  
You hadn t yet cut it all off

**E**

And now it s long once again, oh

**B**

Oh, it s long once again

**B**

As I kept track of every haircut that we ever had

**E**

I could, I could see how long it had been, oh

**B**

Oh, how long it had been

**C#** **F#**

And this thought, made it clearer

**C#** **F#**

I ought to be near her

(Chorus)

**B**

**C#**

**F#**

All I see is where our days repeat

**B**

And our love goes on

**C#**

**F#**

As our hair grows long

**B**

Oh, Chelsea Lynn

I watched your hair grow from the root to tip

**E**

I know, I know I have always known

**B**

And I always will know

**B**

That I could have a single direction until I am dead

**E**

I ll go, I ll go as I always have gone, and

**B**

And I always will go.

**C#**

**F#**

This thought made it clearer

**C#**

**F#**

I ought to be near her

(Chorus)

**B**

**C#**

**F#**

All I see is where our days repeat

**B**

And our love goes on

**C#**

**F#**

As our hair grows long
