

## Half Acre

Hem

Half Acre - Hem

Standard Tuning

C: xx3331

D                    A            G  
I am holding half an acre  
D                    A            G  
Torn from the map of Michigan  
D                    A            G  
And folded in this scrap of paper  
Em            G  
Is the land I grew in  
  
D                    A                    G  
Think of every town you ve lived in  
D                    A            G  
Every room you lay your head  
D                    A            G  
And what is it that you remember  
  
C            G            D            Bm  
Do you carry every sadness with you  
C            G            D            Bm  
Every hour your heart was broken  
C            G            D            Bm  
Every night the fear and darkness  
Em            G  
Lay down with you  
  
D                    A                    G  
A man is walking on the highway  
D                    A            G  
A woman stares out at the sea  
D                    A                    G  
And light is only now just breaking  
  
C            G            D            Bm  
So we carry every sadness with us  
C            G            D            Bm  
Every hour our hearts were broken  
C            G            D            Bm  
Every night the fear and darkness  
Em            G  
Lay down with us

**D**                      **A**              **G**  
But I am holding half an acre  
**D**                      **A**              **G**  
Torn from the map of Michigan  
**D**                      **A**              **G**  
I am carrying this scrap of paper

**C**                      **G**              **D**              **Bm**  
That can crack the darkest sky wide open  
**C**              **G**              **D**              **Bm**  
Every burden taken from me  
**C**              **G**              **D**              **Bm**  
Every night my heart unfolding  
**Em**              **G**  
My home
