

**Fall Into Me**  
**Hey Monday**

Fall into me  
By: Heymonday

Intro: **A-F#m**

Verse: **A-F#m**

I was looking through the chair, you were looking through the mirror  
Never met eyes, no, Iâ€™ve never seen clearer than now  
Thereâ€™s no way out  
Iâ€™m tingling in places I didnâ€™t know existed  
How are things right and also twisted?  
How can we work this out?

**E--F#m-D 2x**

Somehow, everything in me is changing  
In the most amazing kind of way

**A-F#m-E--D**

Every single breath you take away  
Gives me more life than before  
We could be the perfect masterpiece  
Baby, bring me in and fall into me

(use the verse chords)

Whenever you are near, I feel like we could do anything  
And I think we should now  
Weâ€™ll take the town  
Your eyes tell me something, afraid to misread  
What if Iâ€™m wrong, what if you mislead me?  
Still, itâ€™s worth the thrill

**E-F#m--D 2x**

Somehow, everything in me is aching  
Just to hear your gentle voice again

**A-F#m-E--D**

Every single breath you take away  
Gives me more life than before  
We could be the perfect masterpiece  
Baby, bring me in

**E-F#m-D**

Things arenâ€™t simple anymore  
Canâ€™t jump in until you know  
But I think that I just might  
Close my eyes and hold on tight

**A-F#m-E-D-----**

To every single breath  
To every single breath

(back to chorus)

Every single breath you take away  
Gives me more life than before  
We could be the perfect masterpiece  
Baby, bring me in  
Every single breath you take away  
Gives me more life than before  
We could be the perfect masterpiece  
Baby, bring me in  
Bring me in and fall into me
