Fall Into Me
Hey Monday

Fall into me
By: Heymonday

Intro: **C#-Bbm**

Verse: **C#-Bbm**
I was looking through the chair, you were looking through the mirror
Never met eyes, no, Iâ€™ve never seen clearer than now
Thereâ€™s no way out
Iâ€™m tingling in places I didnâ€™t know existed
How are things right and also twisted?
How can we work this out?

G#--Bbm-F# 2x
Somehow, everything in me is changing
In the most amazing kind of way

C#-Bbm-G#--F#
Every single breath you take away
Gives me more life than before
We could be the perfect masterpiece
Baby, bring me in and fall into me

(use the verse chords)
Whenever you are near, I feel like we could do anything
And I think we should now
Weâ€™ll take the town
Your eyes tell me something, afraid to misread
What if Iâ€™m wrong, what if you mislead me?
Still, itâ€™s worth the thrill

G#-Bbm--F# 2x
Somehow, everything in me is aching
Just to hear your gentle voice again

C#-Bbm-G#--F#
Every single breath you take away
Gives me more life than before
We could be the perfect masterpiece
Baby, bring me in

G#-Bbm-F#

Things aren't simple anymore
Can't jump in until you know
But I think that I just might
Close my eyes and hold on tight

C#-**Bbm**-**G#**-**F#**-----
To every single breath
To every single breath

(back to choros)
Every single breath you take away
Gives me more life than before
We could be the perfect masterpiece
Baby, bring me in
Every single breath you take away
Gives me more life than before
We could be the perfect masterpiece
Baby, bring me in
Bring me in and fall into me
