

**Last Mistake
Hey Ocean!**

Last Mistake

* = Strum once.

Capo on 3

C **G**
Tracing the silver lines of the moon with our eyes
D
We both knew it was time
C **G**
With your finger you traced every line, every angle of my face
D
Never wanting to leave this place

C **G**
Time took its toll and we lost any thought of control
D **Am**
We once had before closing the door
C
This was going to be our last mistake
D
A quick inhale
Em*
A fast intake
D*
We tried to take it slow
C
But no

G
It wasn't an option in our state of mind
D
Anything that was left was left behind

Am **G** **D**
We are the only ones who knew this kind of love
Am
I promise you this

G
Skies above had nothing to do with it
D
No, no

C
With the war all around
G
There was no other sound

D

And our eyes they were stung

C

By the light of the sun that was fast rising

G*

I grabbed your hand in mine

D*

Our fingers intertwined

C

D

Any face that we saw was so unrecognizable now

Am

And we didn't know how

C

Every familiar thing we once knew disappeared

D

Em*

D*

I was trying to hear you through the crowd of people screaming

C

G

For their souls in a word that they would obey you

D

And I looked the other way, knowing

Am

G

D

We are the only ones who knew this kind of love

Am

I promise you this

G

Skies above had nothing to do with it

D

No, no

Am

G

This is gonna be our last mistake

D

Am

We won't find out till it's too late

G*

I wonder if she's gonna stay

D*

Am*

I left before he was awake
