

In Colour
Heyhihello

HeyHiHello - In Colour.

Bb **F** **Gm**
The rocket that sits in my garage
Eb **Bb**
It runs on hopes and dreams
F **Gm** **Eb** **Bb**
And it s bursting at the seams to get out of this town now!
F **Gm** **Eb** **Bb**
I ve got a map of the universe and don t know where to go first- But I ll
F **Gm**
bring back a souvenir

Eb (**Eb**) **Bb** **F**
Here, I thought that I was sleeping with eyes closed tight
Eb **Bb** **F**
And somehow, I d be dreaming in broad daylight
[I have to wonder]

[same chords]

Here I am, a hopeful rocketeer
With space exploration gear
There s room enough for two
That s why I m glad I found you here!
We ll go to Jupiter and Mars
Far above the roads and cars
So high up in the air

Here, I thought that I was floating down..

and sleeping with eyes closed tight
And somehow, I d be dreaming in broad daylight
And when I dream about you so late at night
That s when I dream in colour so true and bright [that I have to wonder]

[no chords]

Late nights spent on the avenue
Bright lights illuminate the city view
The air is clear and you can see for miles around
So high above the earth s atmosphere
Gravity can no longer hold me captive here
When I m awake all I think about is seeing your town

I thought that I was hearing a symphony

Filled with strings that played in twelve part harmony
And everywhere I go they follow me
Through the air they play in colour that you can see!

Here, I thought that I was sleeping with eyes closed tight
And somehow, I d be dreaming in broad daylight
And when I dream about you so late at night
That s when I dream in colour so true and bright [that I have to wonder]
