In Colour Heyhihello HeyHiHello - In Colour. вb \mathbf{F} Gm The rocket that sits in my garage Eb Bb It runs on hopes and dreams F Gm Eb вb And it s bursting at the seams to get out of this town now! Gm Eb Bb F I ve got a map of the universe and don t know where to go first- But I ll Gm F bring back a souvenir (Eb) $\mathbf{E}\mathbf{b}$ вb F Here, I thought that I was sleeping with eyes closed tight $\mathbf{B}\mathbf{b}$ Eb \mathbf{F} And somehow, I d be dreaming in broad daylight [I have to wonder] [same chords] Here I am, a hopeful rocketeer With space exploration gear There s room enough for two That s why I m glad I found you here! We ll go to Jupiter and Mars Far above the roads and cars So high up in the air Here, I thought that I was floating down.. and sleeping with eyes closed tight And somehow, I d be dreaming in broad daylight And when I dream about you so late at night That s when I dream in colour so true and bright [that I have to wonder] [no chords] Late nights spent on the avenue Bright lights illuminate the city view The air is clear and you can see for miles around So high above the earth s atmosphere Gravity can no longer hold me captive here When I m awake all I think about is seeing your town

I thought that I was hearing a symphony

Filled with strings that played in twelve part harmony And everywhere I go they follow me Through the air they play in colour that you can see!

Here, I thought that I was sleeping with eyes closed tight And somehow, I d be dreaming in broad daylight And when I dream about you so late at night That s when I dream in colour so true and bright [that I have to wonder]
