

Louder Than Words
Heyhihello

Hello, i did this chords, because I didn t understand the tutorial of Jacub on Youtube.. :D So I m not sure about them and although that are my first chords, I

did my best :) If you notice some mistakes, comment. Have fun with this cool song!

HeyHiHello - Louder Than Words

Capo 4

Cadd9 **G**
It s a beautiful day outside,
Em7 **D**
Everything is okay and alright.
Cadd9 **G** **Em7**
Your smile is a vast contrast from the things we said last night. (oh, last
D [rapeat chords through hole song]
night)
Why did I say that line?
If I shut my mouth, we d be fine.
I ve got perfect hindsight in the daytime,
I m starting to see that
In a perfect situation, I d be doing things much differently.

And I just thought, thought you should know,
I m sittin by myself, but I m never alone.
In fact, I m making myself heard,
I ve found something louder than words.

Would you believe that I m down, and everyone in this town,
Is waiting to see offhand, if I ve got a plan to stick around?
They say actions speak louder than words.
So I don t blame you
If you go by what you ve seen instead of what you ve heard.

And I just thought, thought you should know,
I m sittin by myself, but I m never alone.
In fact, I m making myself heard,
I ve found something louder than words.

I just thought, thought you should know,
I m sittin by myself, but I m never alone.
In fact, I m making myself heard,
I ve found something louder than words.

I ll take a step away from entropy and take one towards who I need to be and
overlook the past cause I m growing up so fast

Into a man that I am so scared to become Cause everything I want is I m not
running from.

Never lookin back.

No, I m never lookin back.

And I just thought, thought you should know,

I m sittin by myself, but I m never alone.

In fact, I m making myself heard,

I ve found something louder than words.
