

Buried Alive By Love Solo

HIM

This is an amazing song and is the opener to the most recent album LOVE METAL. Linde isan underestimated guitarist with the best style ever!!!! I haven t seen this solo tabbedbefore (probably as it isn t that easy to hear) so I decided to do it, there are somegreat tabs for the rest of the song though. I think a few places in this tab are a bitsketchy but it sound pretty much right to me. Please send any corrections to \*
