

Dont Fear The Reaper Intro

HIM

Album: Greatest Lovesongs Vol. 666

Tuning: Standard.

Okay guys, all i have is the piano part that is played throughout like the whole song. I just can t figure out the guitar part because of the heavy distortion i can t tell what notes are being played. I played along with the song and this sounds perfect. I m proud of myself.

Use capo on seventh fret

```
e |-----|
B |-o-----o-|
G |-----9-7-----7-----7-----7-----|
D |-----9-----7-----7-----7-----|
A |-o----7-----9-----10-----9-----o-|
E |-----10-----8-----10-----|
```

just repeat it as many times as it is in the song.
enjoy.
